MO: By prying open the door to a business and removing a laptop computer without permission.

3-6-08, Detailed to 13000 Athens #104G on report that a business was broken into sometime overnight. Upon arrival, spoke with the business owner, VIC/ JEFFREY DOBOS, who stated that when he came in this morning, he found that the front door had been pried open and a laptop computer was taken from behind the desk. The door was closed when he arrived.

To access the office, one has to enter through the front door and go into room 104 which appears to be an office in itself. One would then have to walk down a winding hallway, past several other offices, to the very end where 104G is located. The front door to 104G is a standard wooden door with a large window. Inside this door is a small room where the assembly of electronics is done. There is a wall with a large window with a similar door that goes into DOBOS' office. Both parts combined does not appear to be more that 24ft x 12ft. The office area is very cluttered, but does have a large LCD monitor (approx 32inch) that is hooked up to a new desk top computer that was not touched. The only item taken was a lap top computer that was on the floor behind the desk, and would not have been visible without walking around the desk.

The entry door to the unit had the door knobs/ bolt installed incorrectly. The angled part of the bolt was facing the hallway where the flat end should have been facing that way to prevent the bolt from being slipped. There was no dead bolt installed. The suspect used a tool to pry the door open with little effort or damage. There was a small area on the door frame that was damaged, when the tool was inserted. A few wood chips were located on the floor. A UPS delivery was made sometime after the incident because a small box was found outside the door and sitting on top of the wood chips.

DOBOS stated that the front doors are suppose to be locked after hours, however he stated that sometimes they are not. He stated that there is one security guard that patrols the entire complex overnight and there are no security cameras or alarms. There were no other offices in the building that were broken into, so it is apparent that DOBOS' office was the intended target.

DOBOS advised that approx. a week ago he received a notification about suspicious activity on his company credit card account. He called Capitol one and advised them that he had the card in his office and to cancel the card on the account because he did not make the purchases. He stated that he had kept the card on his desk and has since destroyed it. He stated that he did not make a police report and thought notifying the bank was sufficient. He did not have a statement yet with the fraudulent purchases on it.

DOBOS has one employee that works as an assembler, soldering electrical components. This employee came to him from a temp agency in December, but lately has been calling off or coming in late. The employee is SUS/ CHRISTOPHER THOMAS, who DOBOS stated is leaving to go to the PHILLIPIENES for a few months where his wife allegedly lives.

On this date at approx. 0900 hrs, DOBOS received a phone call from THOMAS that he would be late and at the time of the report had shown up yet. The call came from _____, indicated on DOBOS' caller ID.

Report # 01-08-001816

I had a CCH run on THOMAS and found that he is [REDACTED] and [REDACTED]. It should be noted that THOMAS' and DOBOS' social security numbers are almost identical, except for the last three numbers. THOMAS has an arrest in Bay Village in 1989 for sale of LSD and several arrests from DEA for manufacturing of methamphetamines and possession of chemicals to manufacture methamphetamines.

[REDACTED]
